PROFILE

I'm looking for a role as a Frontend Developer where I can contribute to a team of world class engineers.

My fascination with how things work is what lead me to a career in development. The thought of creating impressive applications through code is what gets me out of bed. I equip myself with diligence and perseverance each day and I'm ready to bring a can-do attitude to meaningful work.

JUSTIN COOK [COMPUTER CONSULTANT SPECIALIST]

PROJECTS

Responsive Website Builds:
Recreated popular websites utilizing paper and PDF wireframes, CSS Flexbox and Grid. Fully interactive sites with working links and navigation. Clean layout makes for a great user experience.

Sticky Notes
Allows user to create sticky notes. Buttons incorporated on notes to change text size. UX enables users to select alternate backgrounds.

Flash Cards
Timed App to teach children numbers. Interactive cards award points for correct responses. Stylized in fun colors for endless entertainment.

WORK EXPERIENCE

University of Southern California [Computer Consultant Specialist]
November 2020 - Present
Trains staff and develops user documentation. Performs IT infrastructure maintenance. Works daily with analysts to improve workflow.

Titus IT Services [Owner and Operator]
April 2016 – May 2020
Performed site surveys and network installation hardware. Collaborated with engineers to initialize software functionality tests. Ensured customer satisfaction with detailed documentation and sign-off.

University of Southern California [Computer Services Consultant II]
July 2012 – April 2017
Troubleshot hardware/network issues. Evaluated and deployed new software applications. Documented new procedures and performed staff training.

HARD SKILLS

Web Development – Utilizes HTML, CSS, Bootstrap, JQuery, and JavaScript to create responsive sites and features.
Version Control – Uses GitHub as a code repository. Made accessible with included documentation of features and functionality.
Tech Management – Ensures network devices receive latest software patches. Configures devices for incoming staff

SOFT SKILLS

Adaptability – Able to effectively learn new skills to support the growing demand of a team and company.
Communication – Great verbal and listening comprehension. Respects opinions of others. Provides clear documentation of projects.
Decision-Making – Nearly 2 years of experience working remotely. Takes initiative with action items to progress team projects.
Problem-Solving – Takes initiative to acquire new techniques and tools to resolve issues.
